Policy on usage:

Material loaned from UTEP should be acknowledged by UTEP catalog number in subsequent publications, reports, presentations or GenBank submissions. A copy of reprints should be provided to UTEP. By signing this form, you agree to use these materials only for the study outlined in your original proposal, and must obtain written permission for any use outside of the scope of your original proposal, including the transfer of UTEP material to a third party. Specimens on loan should be returned to UTEP using the same packing container and materials, shipping method, and insurance value unless other arrangements are made with the UTEP Curator in charge of this transaction. Thank you for your cooperation.
